Brayan Alvarez Gomez

Web Developer

ABOUT ME

Web developer in training with solid knowledge of HTML, CSS, React, Node js, Typescript, XAML, WPF and Python.

I am also a self-taught graphic designer with extensive experience using Adobe Illustrator and Photoshop.

Passionate about creating attractive and functional interface, I apply digital marketing practices to boost online visibility.

I am looking for opportunities to contribute my creativity and technical skills to web development and design projects.

EXPERIENCE

Front-End Developer (PORCISOFT Project)

Carnicería PORCISOFT

- Technologies: XAML, C#, WPF animations
- Layout and front-end development for the order and stock management application.
- Implemented animations and interactions to improve usability (menú transitions, visual feedback on buttons).
- Designed and adapted graphic assets (icons, internal, banners, loading, screens).
- Collaborated closely with the back-end team for service consumption and data binding.

Desarrollador Web

Online Clothing Store | Freelance

Tecnologías: HTML5, CSS3, JavaScript (ES6), Bootstrap

- Basic SEO optimization: meta tags, semantic structure, and alt attributes for images
- Built a responsive website for product catalog and shopping cart.
- Implemented validation and product filters using pure JavaScript.

Brand Designer

Art Venture "[Lotos Art]" | Freelance

- Developed full visual identity: logo, color palette and brand guidelines.
- Created promotional materials for social media and print (flyers, business cards).
- Delivered editable files in Illustrator and Photoshop for future adaptations.

Web Developer And Designer

Web Services Portfolio | Freelance

Tecnologías: HTML, CSS Grid, JavaScript, Git

- Designed user interface and user experience to promote web creation services.
- Integrated contact forms and usability testing.
- Build mockups and prototypes in Adobe XD/Photoshop to validate layout before layout development.
